

GameSaveDoxData v.1

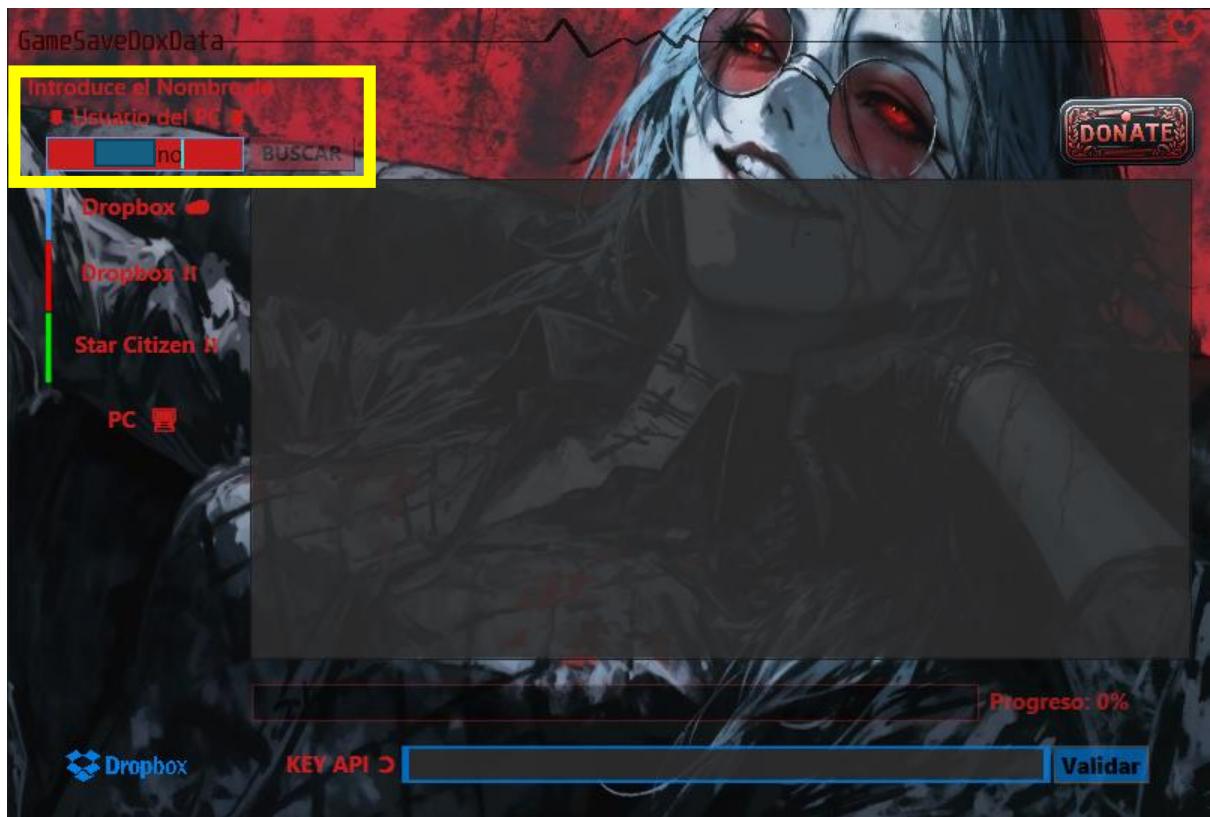

HOW TO UPLOAD (SYNCHRONIZE) FILES TO DROPBOX?

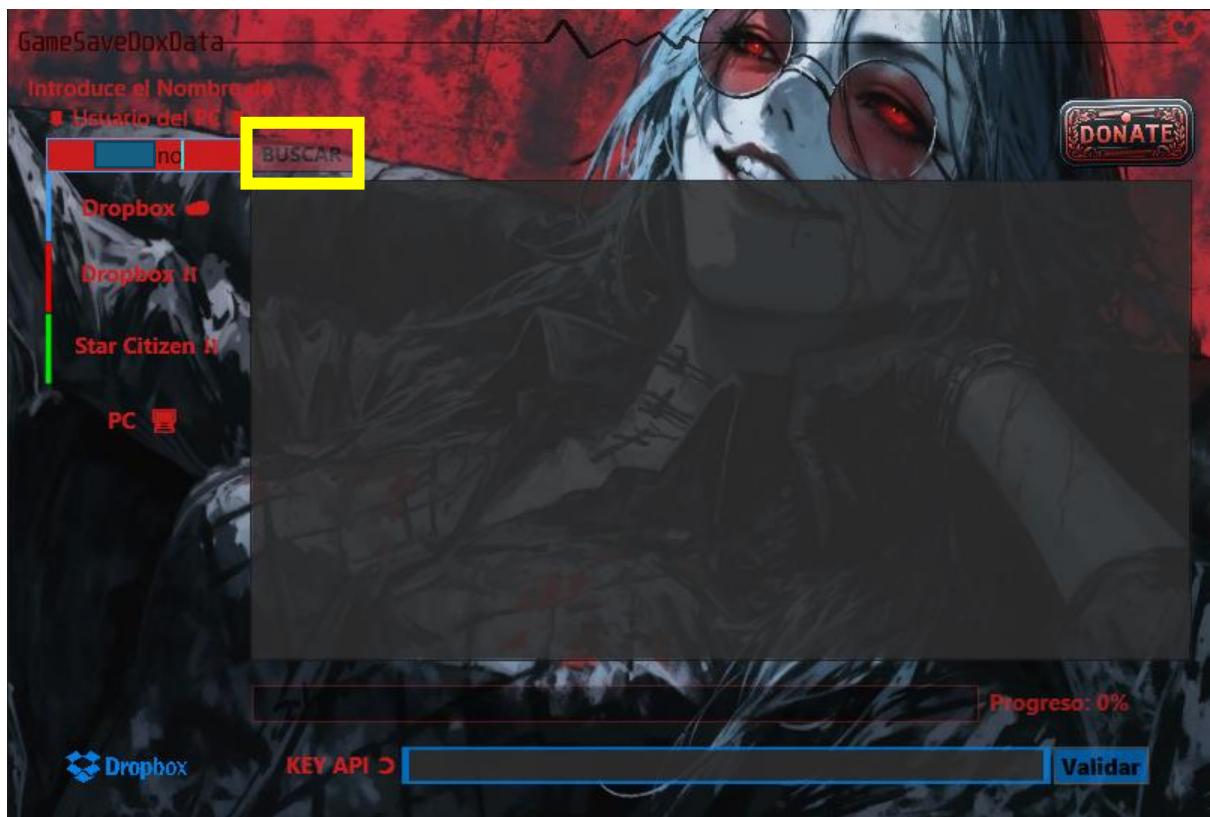

Once you have connected the Application with DropBox you can start synchronizing the saves of your games **Originals** and

- In the upper left rectangle, you must enter the username of **PC**

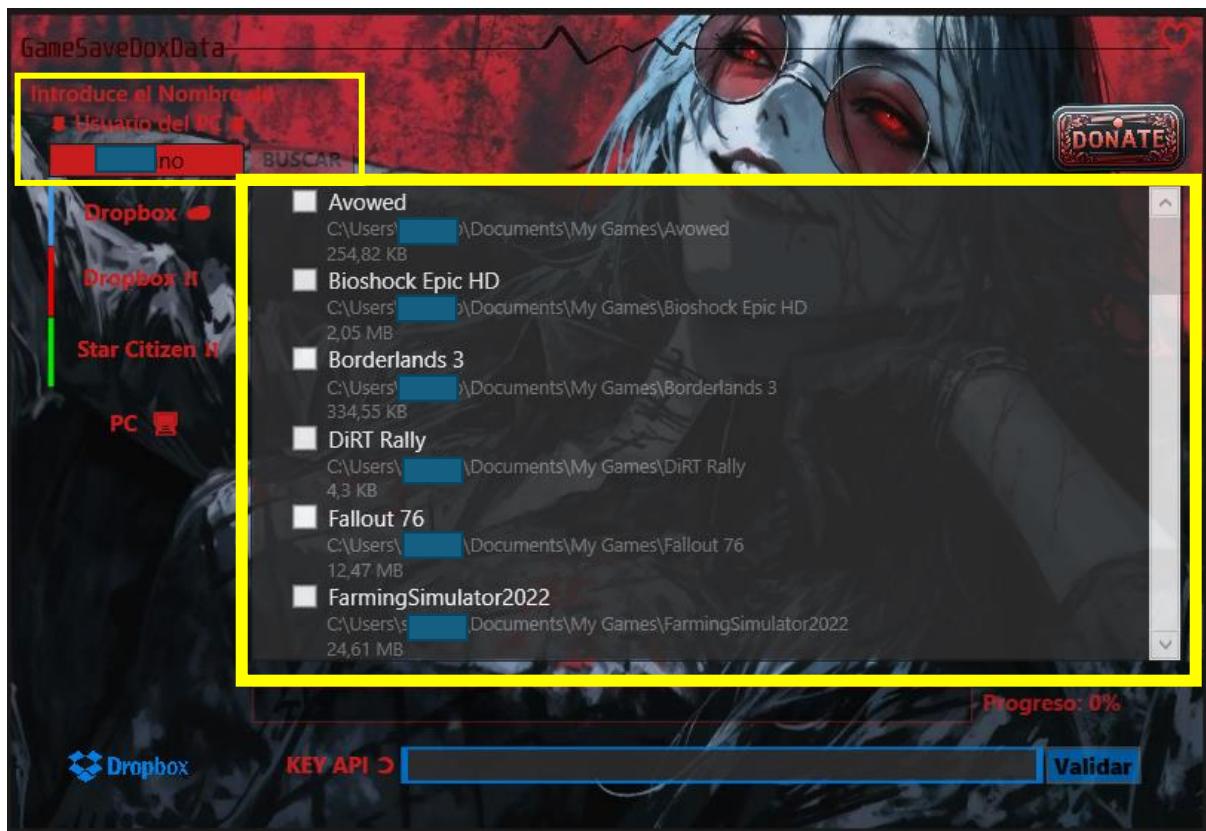

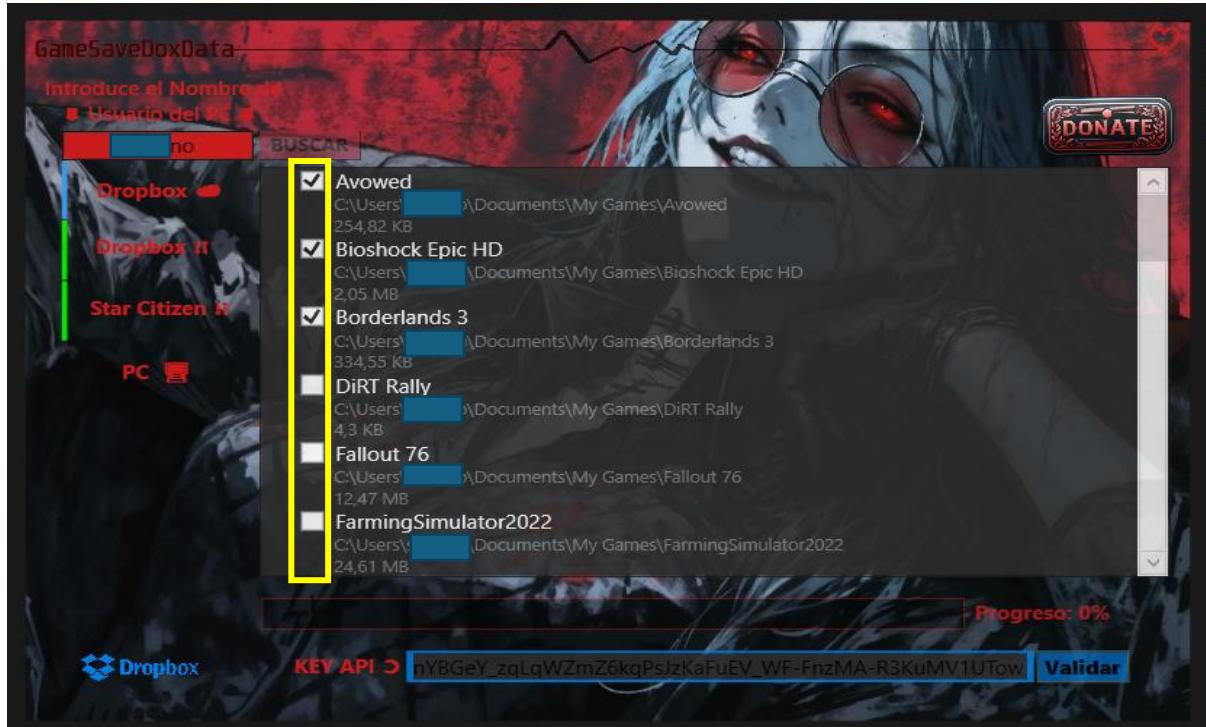

- Once you enter the username press **LOOK FOR**

- By pressing the Button **LOOK FOR** With the correct username entered, it will appear a list of your saved game folders

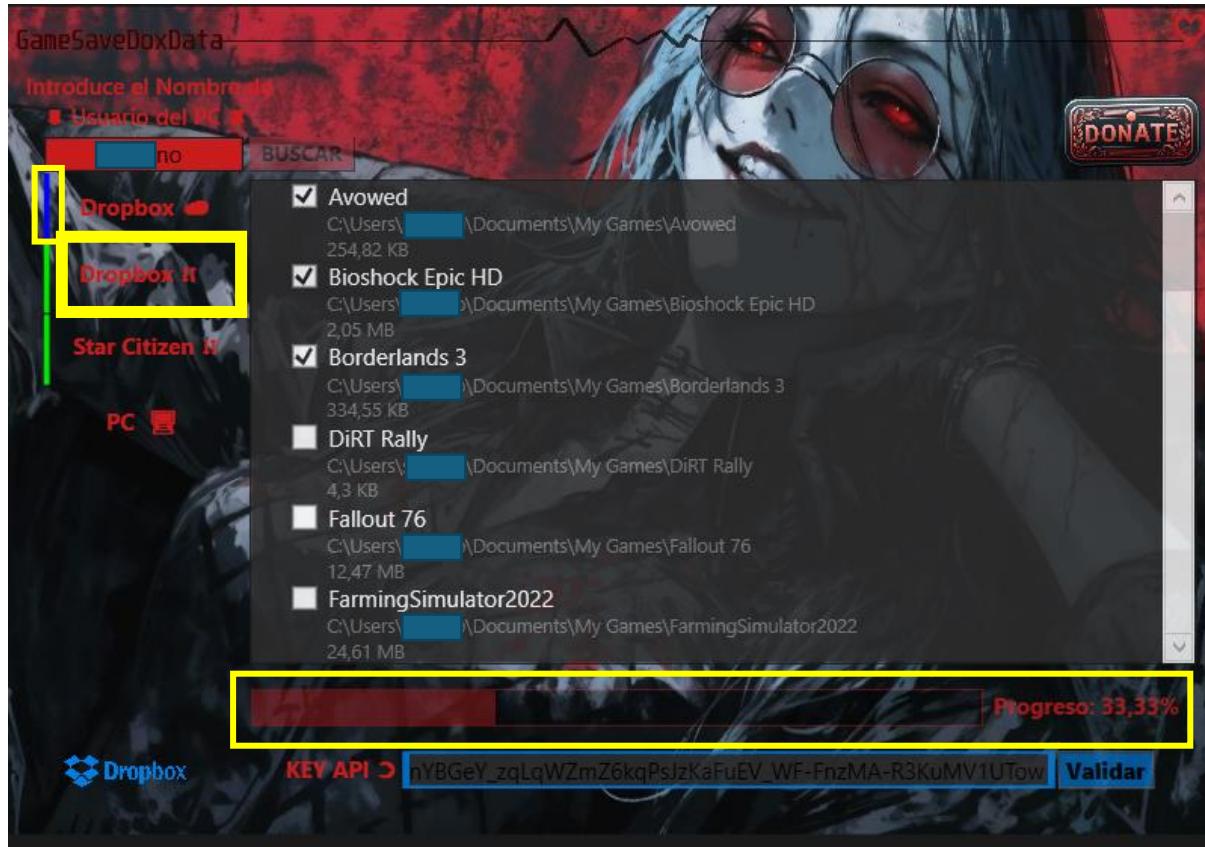

- Select the Files you want to save in [Dropbox](#)

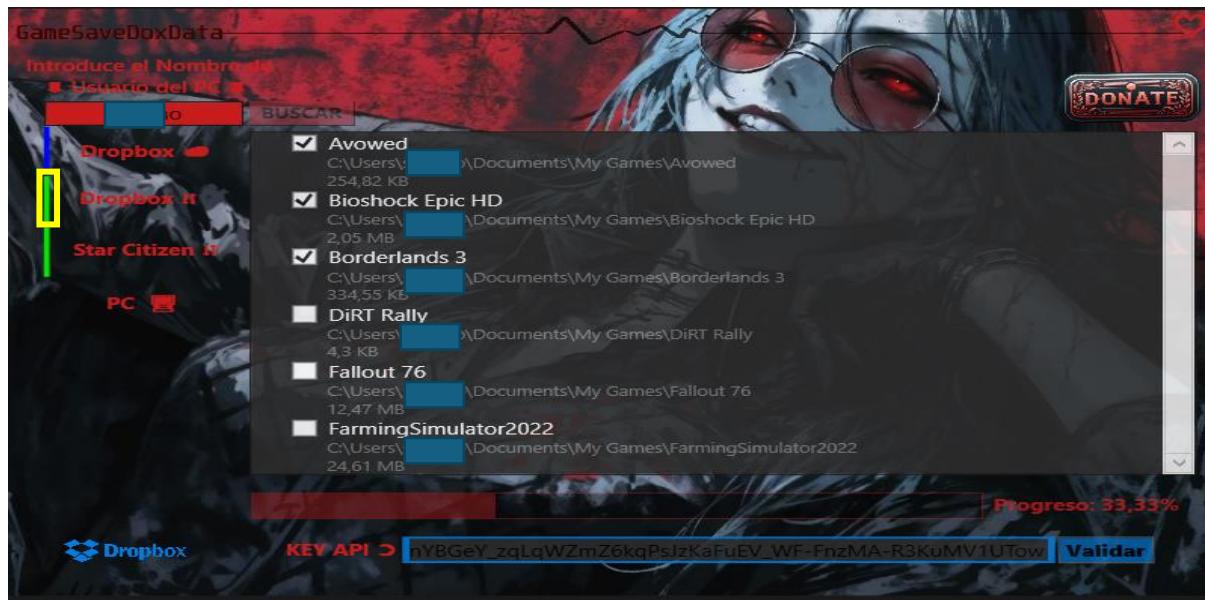

- Press the Button: [DropBox↑](#) to sync the selected files/folders

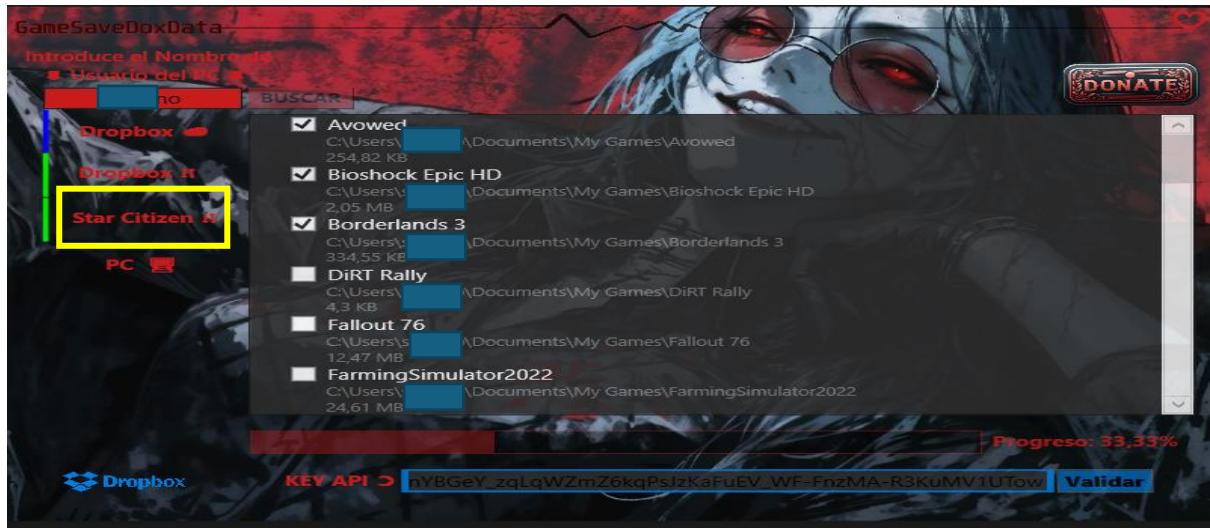

(heBlue LED of the ButtonDropbox will start flashing and the barProgress will start to display the synchronization status)

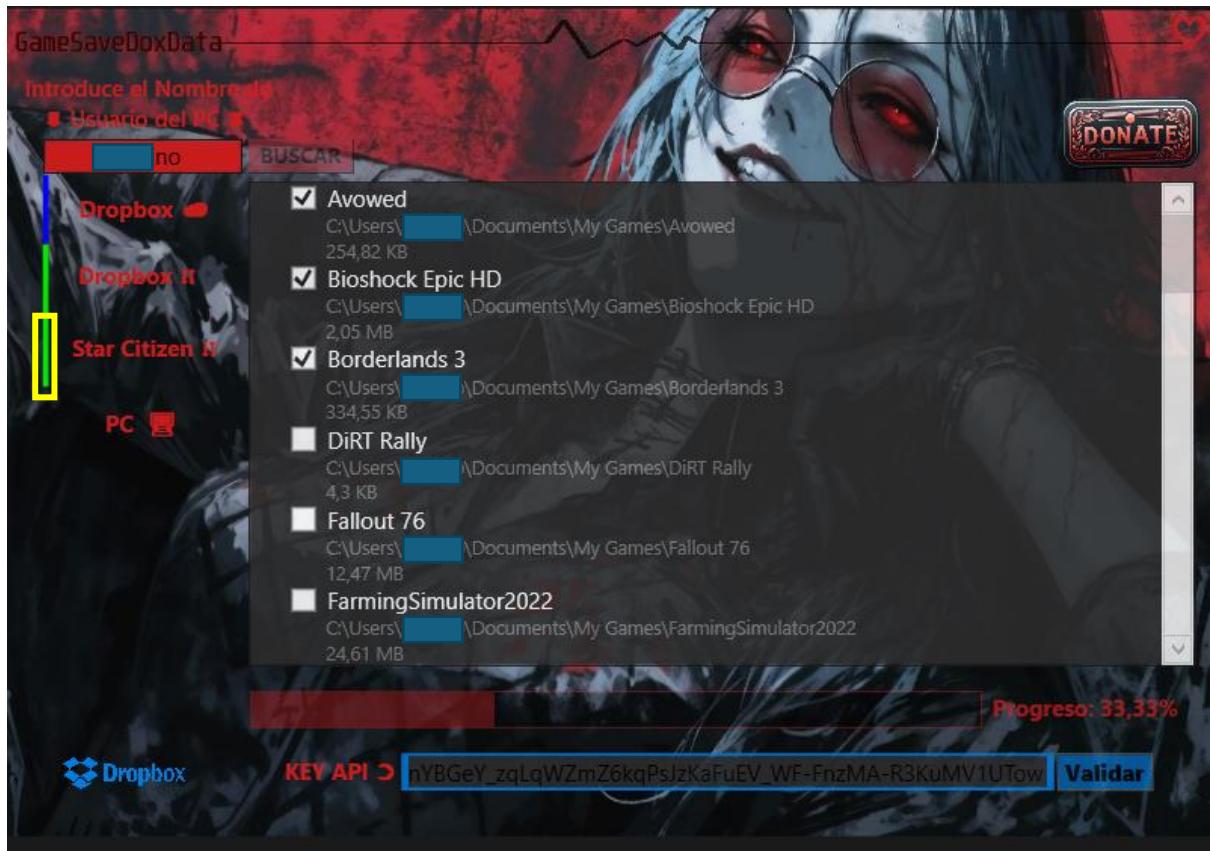

- HeGreen LEDOn the left side of the ButtonDropbox indicates that theKEY APIis ACTIVE, Therefore, Files/Folders can be synchronized

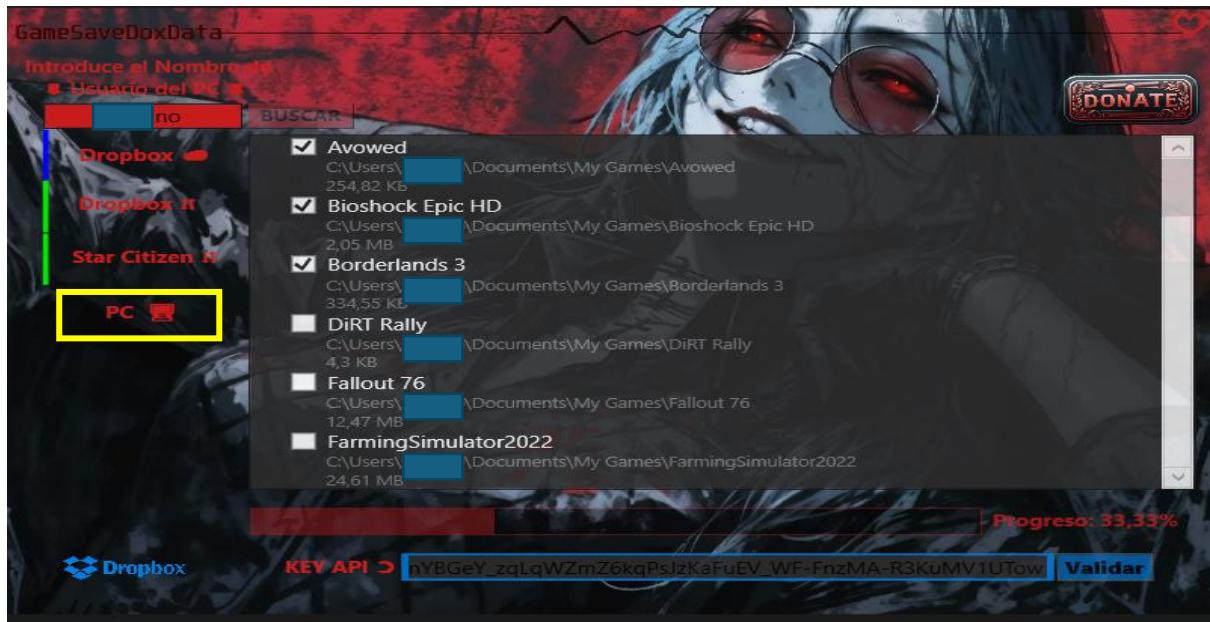

- If you have Star Citizen installed and press the Button:**Star Citizen**↓, will begin the Sync (copy) Star Citizen USER folder to Dropbox

HeGreen LEDOn the left side of the Button indicates that the Star USER folder was found
Citizen

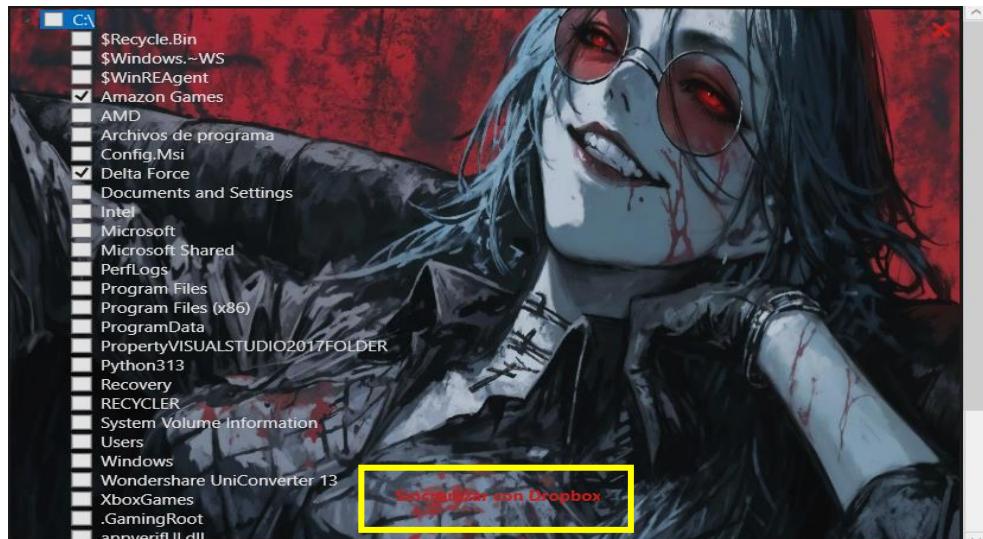

- The Button:**PC** When you press it, a pop-up window opens that allows you to Synchronize
any folder with**Dropbox**

- Select the Folders/Files you want to sync.

- Press the Sync Button with [DropBox](#) to start Synchronization.

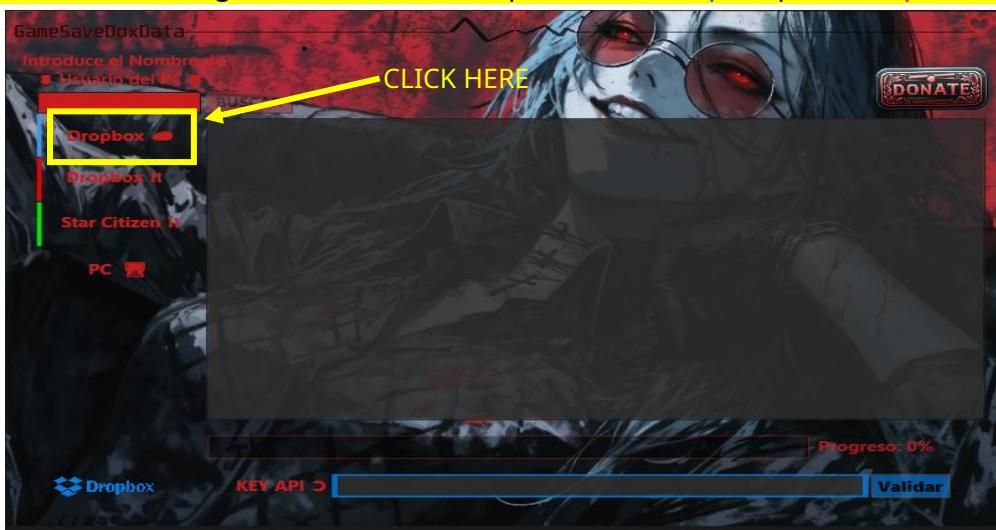

ADDITIONAL INFORMATION

- Once the window file synchronization has started **PC**, you can close

this window, the synchronization will continue in the main window

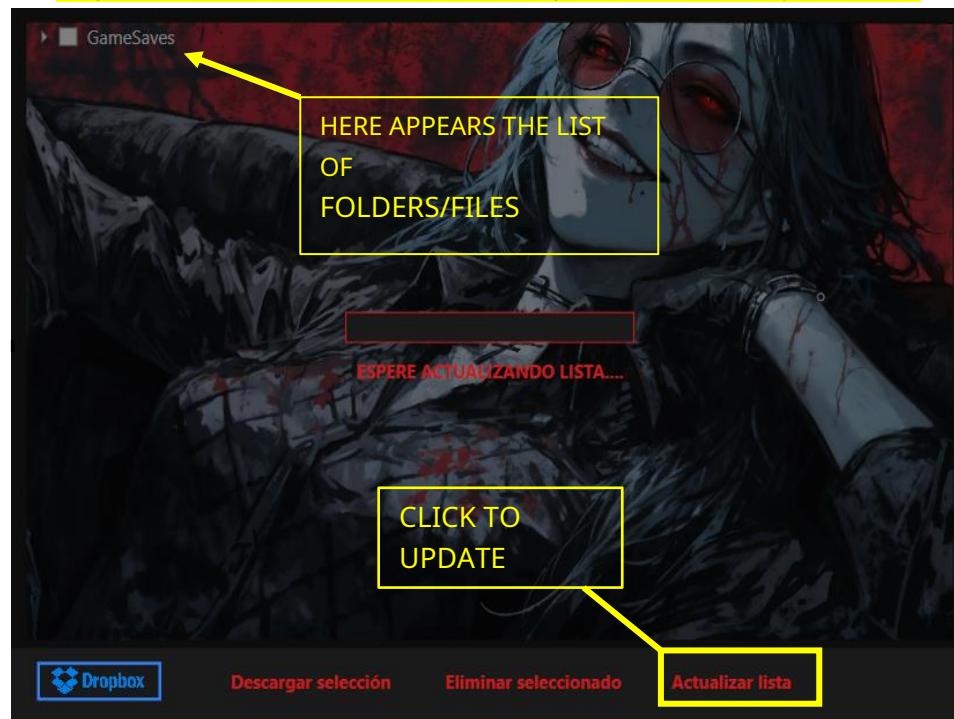

- To view and manage the Folders/Files uploaded to **Dropbox** press **Dropbox**

- The Folder should appear here **GameSaves** which is automatically created here is where
Uploaded Folders/Files will be Synchronized

- If you don't see the GameSaves folder press the Button **Update list**

WHAT TO DO IF YOU RECEIVE A SECURITY WARNING MESSAGE?

If when opening the program or while synchronizing files/folders it appears
a safety warning, don't worry! this happens because the

The program needs administrator permissions to be able to copy the folders
associated with games.

Your PC generates a security alert to inform you of this action, but not
as a cause for alarm. If you click on the windows security notification,
you will see that this is simply a standard notice.

How to check that the program is clean **virus**?

You can verify that the program is free of **virus** using the tool
VirusTotal. It is a reliable platform that scans files, URLs and other
elements for malware. Simply upload the file or enter the
link on their home page for a detailed analysis

Folders where the program looks for games

C:\Users\YOUR_USER\OneDrive\Documents\

C:\Users\YOUR_USER\Documents\My Games\

C:\Users\YOUR_USER\Documents\GAME\

C:\Users\YOUR_USER\Documents\Rockstar Games\

C:\Program Files\Rockstar Games\

C:\Users\YOUR_USER\Saved Games\

C:\ProgramData\Electronic Arts\

C:\Program Files\GAME\Saves\

C:\Users\YOUR_USER\Saved Games\

C:\ProgramData\GAME\
